MEDIA RELEASE

ISDN Holdings successfully commissions its first two mini-hydropower plants in Indonesia

- ISDN's hydropower plants in Anggoci (10MW capacity) and Sisira (4.6MW capacity) successfully passed commissioning this week.
- Commissioning enables ISDN to move forward towards securing permits for full commercial operations.
- Both plants have completed construction and are generating sustainable hydro-powered electricity to its municipal grid.
- The third ISDN mini-hydropower plant of 10 MW at Lau Biang continues to make good progress towards commissioning by first half of 2022.
- ISDN looks forward to updating investors in the future as the plants progress at pace towards commercial operations.

Singapore, 10 September 2021 – ISDN Holdings Limited (“**ISDN**”, together its subsidiaries the “**Group**”), a leading industrial automation firm, is pleased to announce that the Group has successfully commissioned its 10MW and 4.6 MW Mini-Hydropower plants (the “**Plants**”) at Anggoci and Sisira respectively, in North Sumatra, Indonesia.

The successful commissioning of the Plants completes a critical milestone as the projects have demonstrated operability and are now able to advance towards final permitting for commercial operations.

Reflecting on the Group's progress with its hydropower projects, **Mr Teo Cher Koon, ISDN's Managing Director and President** remarked that “we are pleased that despite considerable COVID-19 disruptions over the last 18 months, our hydropower team has pressed forward and delivered two successful commissionings this week. The Board and our management team would like to thank our hydropower team for their unyielding commitment to overcoming many pandemic obstacles to achieve these successful commissionings.

ISDN remains focused on our strategy of advancing our core industrial automation portfolio, while also progressing our clean industry portfolio. The diversified and synergistic ISDN portfolio continues to provide the benefits of a strong core growth market in industrial automation, coupled with emerging growth and strong corporate sustainability credentials in our clean industries portfolio.

Sustainability must be a part of ISDN's commitment to the future of Asia's industry, and our clean industries portfolio allows us to create a clear corporate commitment to sustainability while also creating investment value through profitable industrial enterprise. We are proud to be providing renewable energy, jobs, and infrastructure in positive cooperation with the Anggoci, Sisira and Lau Biang communities.

We look forward to updating investors on the commercial operations and prospects of our hydropower plants in the future once our commercial permits are secured.”
